

Assembly

As an appliance manufacturer in our own right, we have wide experience of electrical and electronic assemblies.

Technical Systems

Our well equipped technical team use One Space 3D and Radan software packages. These allow us to handle most file formats such as IGES, DFX, MI, DWG etc. We are also happy to be involved in developing new products.

Consort

We have been based in Milford Haven since 1966, operating in 4 distinct business areas:

*Fabrication
Crossflow Fans*

*Electric Heating
Air Purification*

Our customers are primarily blue chip companies with exports accounting for 15% of turnover.

If you would like any further information on any of our products or services, please do not hesitate to contact us:

QUALITY SUB-CONTRACT FABRICATION AND MANUFACTURING

From our 100,000 sq ft manufacturing facility in Milford Haven, Pembrokeshire, we service a wide variety of customers from around the UK with subcontract parts.

We offer a high standard of:

*CNC lasering and punching
Press parts
Painting*

*CNC forming
Welding
Assembly*

Our speciality is repeat work with flexible scheduling, made to exacting standards. Our commitment to quality is underlined by our long held ISO9000 certification.

CNC Punching and Lasering

Sheet size of up to
2,500 x 1,250 mm

Sheet thickness:

Mild Steel	20 mm
Stainless Steel	10 mm
Aluminium	5 mm
Shim steel	0.25 mm

CNC Forming

Our 2 RAS folders handle parts up to 3 m wide and 3 mm thick. Ideal for products requiring a clean finish with no witness marks.

The Salvagnini folding centre can tackle sheets up to 1.8 m wide and 3 mm thick. Its speciality is complex repeat box work.

Both the RAS and Salvagnini folders can generate radius profiles.

A 4 head CNC rolling machine for material up to 1 m wide and 1.5 mm thick. This roller is very versatile, producing oval as well as circular forms.

Welding

We have 5 welding booths with MIG and TIG welding sets, comprehensive finishing equipment and a Fanuc robot welder for high volume jobs. A number of spot welders are also available for less demanding work.

Painting

Our 2 dry powder paint lines can handle parts up to 950 mm high and 500 mm deep.

Press Work

20 power presses ranging from 20 to 150 tons, plus a 750 tonne hydraulic press
